

# Aut 1: Home Learning Challenge!

Here are some home learning ideas for you to try. You can pick which you do and in which order.

Make a 3d model of the Earth with labelled continents and seas.

Write a postcard from an imaginary holiday you have taken to Space.

Keep an exercise journal which documents how you have got yourself out of breath at least once a week.

Research and prepare a simple presentation about a planet of your choice.

To improve your speedy spelling and quick maths score every week this half term, practise at home.

Prepare a show and tell for the class which allows them to learn more about you.

Bring your learning in and we will tick it off each time. Bring this sheet back with you at the end of the half term.
